

# Quaestiones Geographicae 27 A/2

## Contents

JOAN ESTRANY, CELSO GARCIA: Monitoring hydrology and sediment transport in a mediterranean agricultural catchment (Mallorca, Spain)

ROBERT KOLANDER, ANDRZEJ KOSTRZEWSKI, JACEK TYLKOWSKI: Seasonal variations in the chemical composition of waters circulating in the Lake Gardno catchment on Wolin Island

MACIEJ MAJOR: Effect of the thickness and duration of snow cover on the time of appearance and stages of water in a basin without an outlet (the upper Parsęta catchment)

IRENEUSZ MALIK: The use of dendrogeomorphological methods in the study of small catchments

ANDREAS SCHEIB, SARAH ARKLEY, CLIVE AUTON, DAVID BOON, JEREMY EVEREST, OLIVER KURAS, STEPHEN PEARSON, MICHAEL RAINES, JOHN WILLIAMS: Multidisciplinary characterisation and modelling a small upland catchment in Scotland

EWA SMOLSKA: Channel response to flood flows on example of the Szeszupa river in the last-glacial area (NE Poland)

EWA SMOLSKA: Soil erosion and fluvial transport monitoring in the upper Szeszupa catchment (NE Poland)

ALFRED STACH: A different basis for choosing rivers chemical load estimation methodology

KRZYSZTOF STĘPNIEWSKI, JAN RODZIK: Discharge and fluvial transport in two catchments of the Roztocze region (SE Poland)

JOLANTA ŚWIĘCHOWICZ: The frequency of slope wash in a small agricultural catchment (Wiśnicz Foothills, Poland)

PIOTR ZAGÓRSKI, STEFAN BARTOSZEWSKI, STANISŁAW CHMIEL, ANDRZEJ GLUZA, KRZYSZTOF SIWEK, JÓZEF SUPERSON: Monitoring of Scottelva catchment (NW part of Wedel Jarlsberg Land, Spitsbergen)
