

Quaestiones Geographicae 28 A/1

Contents

- BARBARA ANTCZAK-GÓRKA: Wind-polished stones as indicators of last glaciation periglacial zones of various ages in periglacial zone
- EWA BEDNORZ, LESZEK KOLENDOWICZ: Local differences in wind velocity and direction on the Łeba Sandbar (Słowiński National Park)
- STANISŁAW CHMIEL, MAREK RESZKA, ANNA RYSIAK: Heavy metals and radioactivity in environmental samples of Scott glacier region on Spitsbergen (2005)
- LESZEK KOLENDOWICZ, EWA BEDNORZ: Macroclimatic conditions within a pine forest in August 2008 on the Łeba Sandbar (Słowiński National Park)
- MACIEJ MAJOR: Effect of extreme events on the disappearance of kettle ponds within the postglacial zone
- ILONA POTOCKA, ALINA ZAJADACZ: Weather and climate as elements of tourism space controlling the demand for and forms of tourist activity
- LESZEK SOBKOWIAK: Long-term and seasonal variability of runoff in the Yangtze River and its tributaries in the Sichuan Basin (South-West China)
- GRAŻYNA SZPIKOWSKA: Spatial differences in the intensity of leaching in the geocosystem of a post-glacial catchment (Chwalimski Potok, upper Parsęta)
- MICHAŁ WOSZCZYK, KAROL ROTNICKI: Lithological changes in a coastal lagoon as a response to isolation from the sea and sand barrier migration – Lake Sarbsko (Northern Poland) case study
